Race Precision Nylon is DIMENSION-POLYANT's latest achievement in Spinnaker Fabrics. This new line has been developed for racing applications and is therefore only available in white. Spinnakers made from RPN are easy to set due to the very smooth surface of the cloth. They are easy to trim and have virtually no air permeability. These characteristics enable the sailor to reach maximum speed, especially downwind. Race Precision Nylon provide the optimum ratio between weight, stretch resistance and tear strength.
