

# Superyacht **Sailcloth**

Dimension-Polyant has successfully taken another leap forward into the future of high-performance sails with its advanced membrane technology. After many years of R&D and extensive practical trials, Dimension-Polyant is now able to produce for the first time D4 membrane sails with Dyneema, the world's strongest fibre. Due to the D4 membranes with Dyneema yachtsmen are now able to take full advantage of this optimal level of performance and enables every discerning yachtsman to enjoy the best of two worlds. The first super sailing yacht equipped with D4 with Dyneema is 34.5m German Frers designed Anemos. An extensive article on the new superyacht sailcloth will follow soon in SuperYacht Industry.
