*The Sailcloth Producer*

**GPL GraphX<sup>®</sup>**

DIMENSION-POLYANT's line of GraphX<sup>®</sup> carbon laminates for racing and cruising yachts of all sizes continue to have a significant impact on the sailing world. Superior fiber handling and advanced lamination technology using our patented Insert<sup>®</sup> process makes GraphX<sup>®</sup> the most durable carbon laminates on the market today. GPL is the first laminated sailcloth line to capture the strength of high performance carbon. GPL laminates utilize high strength carbon warp sheet fiber, super rugged Technora<sup>®</sup> Black base and Technora<sup>®</sup> Black X-PLY<sup>®</sup> to create high performance fabrics with incredible resistance to flex and elongation. These composite fabrics are the answer for no compromise high performance (until legal in all classes) sails where the ultimate strength is demanded. GPL's take Carbon to a new level in High Performance materials.
