

DIMENSION-POLYANT

The Sailcloth Producer

SF High Aspect DIMENSION-POLYANT's SF High Aspect woven polyester is a fill-oriented construction that delivers exceptional threadline strength for high aspect applications.

SF High Aspect styles deliver an optimum combination of low stretch performance and durability for high aspect, high performance mainsails, jibs, and #3 headsails, in cloth weights that cover a wide range of boats. High-tenacity, non crimped fill yarns are the key to SF High Aspect's unsurpassed stability in the primary direction. A tight weave maintains excellent bias control, and the MTO finish gives SF High Aspect an easy-to-handle soft working "hand." SF High Aspect styles are also available in firm HTP[®] Plus finish for racing applications. Cloth widths are 36"/91.4cm for the 230SF and 260SF styles, and 36"/91.4cm and 55"/140cm for the 300SF, 350SF, and 390SF styles.

SF High Aspect

● **HIGHEST QUALITY FROM THE START**

DIMENSION-POLYANT uses only performance high tenacity fibers, customdeveloped chemicals as well as premium films from qualified suppliers

● **IN-HOUSE MANUFACTURING**

DIMENSION-POLYANT is worldwide the sole producer of high quality sailcloth with its own in-house manufacturing. As sailcloth is our only product we have invested in customized equipment for weaving, finishing and laminating.

● **CONTINUOUS INNOVATION**

DIMENSION-POLYANT has the most dedicated R&D team, the state-of-the-art facilities and preferred access to the newest fibers, chemicals and components. Together with German and American engineering this provides the base for trend setting developments.

● **GLOBAL REACH**

Our worldwide distribution and technical support network makes DIMENSION-POLYANT the perfect partner for your sailmaker
