Precision Nylon

The name says it all: If precision is important to you when sailing, then this is your material of choice. The Precision Nylon spinnaker materials have been developed and engineered by Dimension-Polyant's masterminds to complement today's radial constructed spinnakers. As the sophisticated pleasure of cruising as well club racing activities always require high quality standards, these are fulfilled by the relevant properties of Precision Nylon's various spinnaker styles such as for example their superior smooth surface and their high dimensional stability. These come with a great tear resistance and are key to the Precision Nylon's profile. Without exception, all styles are coated for the best possible performance, resilience and longevity.

GENERAL NOTE

All suggestions are based on our worldwide experience with sailcloth applications. Please note that the recommendations are meant as guidelines. You should consider, when making your choice, if the sail will be used in a particular heavy or light wind area.

Neither Dimension-Polyant nor any of its affiliates assume any liability for special, incidental or consequential damages due to the recommendation given.

HIGHEST QUALITY FROM THE START

Dimension-Polyant uses only performance high tenacity fibers, customdeveloped chemicals as well as premium films from qualified suppliers.

IN-HOUSE MANUFACTURING

Dimension-Polyant is worldwide the sole producer of high quality sailcloth with its own in-house manufacturing. As sailcloth is our only product we have invested in customized equipment for weaving, finishing and laminating.

CONTINUOUS INNOVATION

Dimension-Polyant has the most dedicated R&D team, the state-of-the-art facilities and preferred access to the newest fibers, chemicals and components. Together with German and American engineering this provides the base for trend setting developments.

GLOBAL REACH

Our worldwide distribution and technical support network makes Dimension-Polyant the perfect partner for your sail-maker.
