Project CZ

Engineered Lighter – Built Stronger

Project 85 and Project 125 represent the latest innovation in Dimension Polyant code sail material. The Project CZ line builds on the success of the CZ GP range and takes great steps forward in weight reduction, durability and safety.

Weighing in at 85 g/m² and 125 g/m² respectively, Project 85 and Project 125 are built upon a .5 mil film and woven Ultra PE foundation to ensure superior tear resistance, UV resistance, ease of handling and low stretch properties. These Ultra PE foundations are enhanced by the addition of 22 degree Technora X-PLY® Black.

The Project CZ range has the ability to service a number of sailing markets. It makes an ideal off wind code sail. Easy to furl, lightweight aloft and the added safety of its tear resistance make for a perfect option for a cruising format catamaran looking to log many ocean miles. The same weight savings and ease of handling also make the Project CZ range an excellent choice for the performance racing market. Project 85 and 125 are superior choices for Structured luff applications as well as performance downwind and off wind sails.

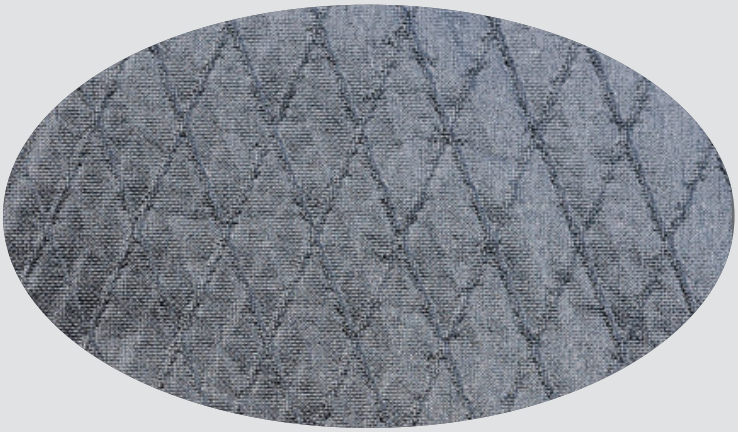

The leading sailcloth manufacturer. Innovation since 1966

- lighter
- stronger
- incredible tear resistance
- low stretch
- furling applications

Boat length	Style
25 - 45 ft	Project 85
40 - 65 ft	Project 125

GENERAL NOTE

All suggestions are based on our worldwide experience with sailcloth applications. Please note that the recommendations are meant as guidelines. You should consider, when making your choice, if the sail will be used in a particular heavy or light wind area. Neither Dimension-Polyant nor any of its affiliates assume any liability for special, incidentalor consequential damages due to the recommendation given.

HIGHEST QUALITY FROM THE START

Dimension-Polyant uses only performance high tenacity fibers, custom developed chemicals as well as premium films from qualified suppliers.

IN-HOUSE MANUFACTURING

Dimension-Polyant is worldwide the sole producer of high quality sailcloth with its own in-house manufacturing. Our sailcloth is built on equipment we've customized for weaving, finishing and laminating, and the demanding technical markets we serve push that capability further.

CONTINUOUS INNOVATION

Dimension-Polyant has the most dedicated R&D team, the state-of-the-art facilities and preferred access to the newest fibers, chemicals and components. Together with German and American engineering this provides the base for trend setting developments.

GLOBAL REACH

Our worldwide distribution and technical support network makes Dimension-Polyant the perfect partner for your sailmaker.
